PROFILE

I'm a Test Automation Engineer with over a decade of experience in front-end and back-end testing. I enjoy building automated test systems that are easy to maintain and extend, along with CI/CD pipelines that improve delivery and reliability.

PROFESSIONAL EXPERIENCE

Senior Test Automation Engineer, Klara

2023-current - Berlin, Germany

- Full-stack Test Automation for a healthcare communication platform connecting medical practices with patients.
- Developed automated API and UI tests using TypeScript and Playwright.
- Implemented performance testing with K6, using Datadog for data analysis and monitoring.
- Migrated Cypress tests to Playwright and introduced WCAG accessibility tests.
- Managed CI pipelines on CircleCI and Github Actions.

Senior Test Automation Engineer, Billie

2019-2023 - Berlin, Germany

- Backend Test Automation for a Fintech startup with an event-driven architecture.
- Developed backend automated tests with Java and Cucumber.
- Created clear technical documentation for complex internal workflows.
- Successfully contributed to the hiring of QA's by interviewing and mentoring new colleagues.

Test Automation Engineer, 3XM Group

2018-2019 - Cordoba, Argentina

- Full Stack Test Automation for the credit card company "Tarjeta Naranja".
- Developed automated test suites for Web and Mobile applications using Java and Serenity BDD.
- Cross-platform mobile testing on Android & iOS platforms with Appium and Browserstack.
- REST APIs tested with Postman.

QA Engineer, JBilling

2014-2018 - Cordoba, Argentina

- Participated in different projects of a Saas billing company.
- Developed Test Plans based on feature designs and functional requirements.
- Contributed to UI Test Automation project using Java, Selenium & TestNG.
- Testing of SOAP APIs with SOAPui.

EDUCATION

Full Stack Development Bootcamp, SPICED Academy

2023 - Berlin, Germany

Degree in Photography, Universidad Provincial de Córdoba

2013 - 2016 - Cordoba, Argentina
